A Brand New Playing Idea

BLACKSTONE offers one of the most novel playing features ever devised. By means of three unique Pyramiding Score Channels it demands skill testing accuracy on the player's part. As each ball enters the opening of a Channel it advances the other ball lodged there to successive sections where scores are higher, thus pyramiding totals as each ball is skillfully shot. To fully appreciate Blackstone you must see it in action. Investigate today!

Custom Built by
Stoner of Aurora

LOW PRICED
